It was reported this morning that a determined effort was to be made-probably to-day
—by the sanford faction to recover from exMayor Gleason the city records and public
documents taken from City Hall and now,
presumably, stowed in Gleason's premises on
Front street. Scarch warrants, it was said,
would be issued for that purpose to-day.

Mr. Snarkey, Sanford's Commissioner of
Public Works, says to-day that he made a
mistake about Gleason's water main. It

had no permit to lay water mains, and he
stopped electric Hight works and electric
railway because of the supposed illegal water
supply.

Mayor Saniord says to-day that there are

Mayor Samford is proceeding with the
duties of the city's executive as best he can
without the books and papers. Glearon declares that he will issue warrants feel. I for

Bleckwenn refuses to honor them he will at

to be relied upon, it is thought, for final legal
settlement of the imbrogits.

At noon to-day the Gleason men were told
that a plan had been made to taid-sizeson s
office and take the city decaments by force.
Through some hitch, however, it was said
that the arrangements could not be completed, and the othernet was abandoned for
the time being.
